Workshop on Supply Chain Management: Identifying Research Opportunities and Best Practices

The virtual workshop titled "Advancing Research in Supply Chain Management: Identifying Opportunities and Best Practices" has been meticulously crafted to empower aspiring researchers, Agri business management students, and early-career professionals with a comprehensive and practical understanding of conducting impactful research in the dynamic field of supply chain management. In today's rapidly evolving business landscape, it is crucial for

future thought leaders and innovators to grasp the intricacies and opportunities within supply chain research. This virtual workshop offers a unique opportunity for attendees to enhance their research skills and gain a competitive edge in the field of supply chain management. By participating, they will be better equipped to conduct high-quality research that addresses real-world challenges and contributes to the advancement of both academic knowledge and industry practices.

Workshop Topics:

- Identifying promising research areas in supply chain management
- Techniques for recognizing research gaps
- Best practices for formulating research questions
- Current trends and future prospects in the field

Participants:

Students (UG and PG) and faculty members from BAU, Sabour and other institutions. (Certificate of participation will be awarded to all the participants who attend the workshop and provide feedback).
