

Workshop on Excelling in Social Science Research Design

📅 15-16 MAY 2026 (FRIDAY-SATURDAY) | 🕒 10:00 AM – 5:00 PM IST

📍 Conference Hall, Department of Agricultural Extension Education

ABOUT THE WORKSHOP

This workshop aims to equip students and researchers with the fundamental principles, techniques, and practices essential for conducting rigorous and effective social science research.

WHAT TO EXPECT

- 💡 **Understanding the principles of social science research design**
- 📄 **Learning different hypothesis testing techniques and sampling methods**
- 📈 **Gaining proficiency in data collection, sampling, and minimizing sampling bias**
- ⚙️ **Enhancing skills in statistical analysis and hypothesis testing**

WORKSHOP GOALS

- 🎯 **To build competence in social science research design**
- 🔍 **To strengthen understanding of hypothesis testing and sampling strategies**
- 📋 **To develop the ability to formulate research objectives and hypotheses effectively**
- 📝 **To enhance analytical skills in data collection, analysis, and report writing**

PARTICIPANTS

- 👥 **Students of Department of Agricultural Extension Education, Agricultural Economics, Statistics, and CABM**

Organized By:
